Conclusion

Our Key Discussion Points

Our History

Established in 1989, we have over 30 years' successful experience in specification, supply and support.

We have invested significantly across our facility, stocks and team for many years.

Our name originates from our first location - based near Chesham Bois (Wood) in Buckinghamshire.

Over the years, we have built up a comprehensive portfolio of the highest quality products.

We have been based at our current headquarters facility in Gloucestershire since 1990.

Our visionary, technically astute and customer focused approach ensures we consistently add value...

Our Mission & Values

Our continued success is built on our own company core values of **Continuous Improvement, Customer Focus, Integrity, and Respect.**

Our mission is to be the best supplier in the right first time **specification, supply** and **support** of gas and liquid control products, supported by a team who are customer driven, technically astute, and always of the highest integrity.

Product Categories

Pressure & Vacuum

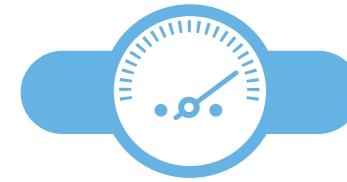

Pressure Regulators

Self-Acting Control Valves

Pressure Sensors & Switches

Safety Relief Valves

Pressure Gauges & Manometers

Flow

Flow Meters, Switches & Control Valves

Solenoid Valves

UHP & Cryogenic Valves

Excess Flow Valves

Filters & Strainers

Pumps & Mixers

Level & Temperature

Level Sensors, Indicators & Switches

Submersible Transducers

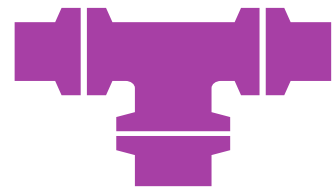

Float Valves

Bleeding & Venting Valves

Steam & Condensate Traps

Thermocouples

Product Categories

Tubes & Fittings

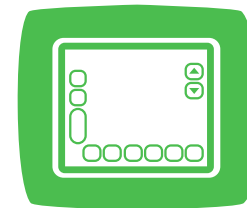

Tube, Pipe, Weld & UHP Fittings

Quick Connects

Instrumentation Valves

Bottle Connectors

Tubing, Piping & Flexible Hoses

HVAC/R

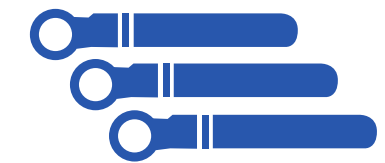

Differential Pressure Sensors

Room Condition Monitors

Power Meters

Particle Counters

Humidity Sensors & Calibrators

Custom Services

Installation Training

Subassemblies

Valve Sizing, Servicing & Repairs

Site Surveys

Our Markets

We specialise in almost all applications involving gas and liquid transfer and control, and our experienced technical team can suggest affordable, reliable and effective solutions to even the most complex challenges.

- Automotive and Aerospace
- Chemical & Petrochemical
- Cryogenics
- Food & Beverage
- HVAC/R
- Marine & Defence
- Medical & Pharmaceutical
- Nuclear
- Oil and Gas
- Power & Utilities
- Renewable Energy
- Semiconductor

Our Partners

Official premium
distributor for our core
manufacturing partners.

GO Regulator

Products

Flow Switches, Flow Monitors, Flow Meters and Excess Flow Valves

Pressure, Flow, Level and Temperature Sensors, Switches & Monitors

Single Stage, Dual Stage, Vaporising & Specialty Pressure Regulators

Overview

Since 1968, ChemTec has been engineering and manufacturing their patented line of flow products specialising in low flow applications.

Gems Sensors & Controls, part of the Fortive Group, are a global manufacturer of sensing and control solutions across all industries.

GO Regulator is a leading designer and manufacturer of standardised and specialty pressure regulators to the analytical markets.

Features & Benefits

- Modular Configurations
- Low Cost OEM Solutions
- Custom Design Options

- Excellent Price/Performance Ratio
- Huge Global Install Base
- Broad Product Portfolio

- Configurations Ex-Stock
- Field Maintainable
- In-House Service Centre

What You Can Expect

Whether an off-the-shelf standard unit or a custom build is required, we can work with you to find the optimal solution for your application.

A solution for every problem, covered by a tremendous product portfolio with a great selection of operating principles and technologies.

Manufacturer certified hands-on technical support and fast deliveries available from our stocks.

BOISWOOD

GAS AND LIQUID CONTROL TECHNOLOGIES

Setra

Rotarex

WIKI

Products

Differential Pressure Sensors, Room Condition Monitors & High Accuracy Measurement Solutions

Ultra High Purity Pressure Regulators, Diaphragm & Bellows Valves and Cylinder Equipment

Pressure Gauges, Sensors, Switches and Level/Temperature Gauges, Transmitters & Monitors

Overview

Founded in 1967, Setra are delivering solutions for HVAC/R, building automation, critical environments and test & measurement.

Rotarex are a gas control industry leader, ever since the first Ceodeux valves won innovation awards in the 1920s.

For over 70 years, WIKA has built a reputation as a renowned and competent specialist for any task in measurement technology.

Features & Benefits

- OEM Configurations
- Specialists in High Accuracy and Low Pressure
- Variable Capacitance Technology

- First-Of-A-Kind Products
- Specialists in Ultra High Purity Gas Handling
- Industry Leading Delivery Times

- Unrivalled Technical Support
- Extensive Technologies, Options and Configurations
- Highly Certified in Industry

What You Can Expect

We can help deliver commercially off-the-shelf products to bespoke tailored system packages.

A partner that never stops inventing, designing, prototyping and manufacturing products that solve industry challenges.

Official and authorised premium partner to support their enormous product portfolio.

Mankenberg

Stoehr

Saint Gobain

Products

Self-Acting Control Valves including Pressure Regulators, Bleeding & Venting Valves, Condensate Traps and Float Valves

Cryogenic Bellows Valves including On/Off & Control Valves, Non-Return Valves and Filters

Performance Plastics including premium pumps, valves, fittings, manifolds and tubing.

Overview

Mankenberg are specialists in deep-drawn stainless steel self-acting control valves for industrial and process applications.

Since the 1960s, Stoehr have specialised in the development and manufacture of cryogenic valves for gases and liquids.

Saint Gobain is a world renowned manufacturer of high performance fluoropolymer products for demanding fluid handling needs.

Features & Benefits

- High Reliability and Long Operational Lifespan
- Low Cost of Ownership
- Fast Delivery on Standard Valves

- Precision Engineered Solutions
- Vacuum Jacketed Versions Available
- Designed for Extreme Operating Conditions and Specifications

- Specialist Application Support
- Virgin PFA/PTFE Construction
- Unparalleled Design Capabilities

What You Can Expect

A large product portfolio consisting of standard valves and project-related special designs delivered as optimal solutions for your needs.

Fully tailored solutions for even the most demanding tasks and harshest environments.

Hands-on guidance and support on performance plastics for delivering the next generation of technologies to the marketplace.

Our Partners

Process Pressure, Flow, Level & Temperature Monitoring and Control Solutions

Instrumentation Valves and Fittings

Inline and Disposable Filters

Microturbine and Thermal Mass Flow Meters and Controllers

Check/Non-Return Valves and Tank Bottom Valves

Clean Gas Technologies for Powertrain

Solenoid Valves, Positioners and Actuators

Pressure and Safety Relief Valves

Instrumentation Manifold and Control Valves

Flow Control Solutions

Pneumatic Valves and Fittings

Gas Mixers, Systems and Safety Devices

Vacuum Pumps and Systems

Bursting and Rupture Disks

Variable Area Flowmeters

What You Can Expect

Quality

High quality products backed by high **quality service levels**. We work together with our partners to ensure everything supplied is **workable** on arrival and **maintainable**. We offer all of our customers **fast and accurate** responses to technical queries.

Price

Competitively priced products that we strive to keep **consistent**. We will always take into account requests from OEMs and repeat customers to ensure special pricing structures are **considered**.

Delivery

Excellent delivery levels working alongside our partners to ensure **reduced lead times** are offered wherever possible and constantly adding to our **ever-growing stocking profile**.

Custom Services

Many of our customers today are tasked to do more with less and our Custom Services division has been developed to enable us to work closer with you by providing a range of product training, education, consultancy and assembly solutions.

Value Added Services

We represent several high-quality, globally reputable manufacturers with many products and services offering unique features and benefits to EPC's, System Integrator's, OEM's and End Users...our customers.

In-House Service Centre - manufacturer certified at our HQ for evaluation, repair, testing, servicing and assembly of our core products.

.....

Local Technical Support - a technical phone helpline and a "man on the ground" approach for on-site support.

.....

Fast Turnaround - local stockholding for standard products available off-the-shelf, as well as "call-off" or "underwritten" order services.

.....

Training Services - a range of tailored educational classes and standard training seminars to suit any requirements.

.....

Design Services - in-house and third-party consultancies available to provide completely bespoke solutions.

.....

Response Times - unrivalled fast service with extremely quick response times to technical and commercial queries.

Get in touch.

Feel free to approach us if you have any questions.
