Products & Services Overview

Pressure & Vacuum

Pressure Reducing Regulators

Back Pressure Regulators

Cylinder & Dual Stage Regulators

Self-Acting Control Valves

Vaporising Regulators

Pressure Transducers & Sensors

Safety & Relief Valves

UHP Pressure Regulators

Autochangeover Manifolds

Pressure Switches

Bursting Disks

Gauges & Manometers

Flow Meters & Sensors

Flow Monitors & Switches

Cryogenic Valves

Excess Flow Valves

Filters & Strainers

Solenoid Valves

UHP Valves & Pumps

UHP Diaphragm Valves

UHP Control Valves

Gas Mixers

Block & Bleed Manifolds

Instrumentation Valves

Level & Temperature

Single Point Level Sensors

Multiple Point Level Sensors

Bleeding & Venting Valves

Steam & Condensate Traps

Submersible Transducers

Level Indicators

Electro-Optic Level Switches

Level Meters

Float Valves

Thermometers

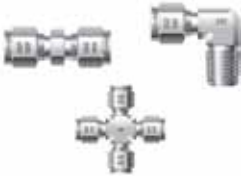

Tank Bottom Valves

Wires & Seals

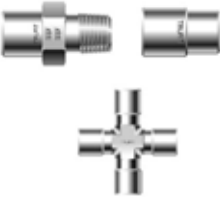

Tubes & Fittings

Tube Fittings

Quick Connects

Weld Fittings

UHP Fittings

FaceSeal™ Fittings

Bottle Connectors

Industrial Pipe Fittings

Tygon® & Versilon® Tubing

Metal Tubing & Piping

Flexible Hoses

HVAC/R

Differential Pressure Sensors

Room Condition Monitors

Power Meters

Particle Counters

Humidity Sensors

Industrial Pressure Transducers

Current Transformers

Data Loggers

Assembly & Testing

Our stocks allow us to assemble and test a variety of pressure regulators on a next-day delivery services.

Service & Repair

We can offer manufacturer certified service, repair and recertification for our range of pressure regulators.

Subassembly

We can take special requests for component subassembly and panel design solutions according to your requirements.

Pressure Regulators and Valve Selection Seminar

Selecting the correct pressure regulators and instrumentation valves to suit your needs can be a complex exercise with several factors to consider. Our seminar has been developed to help you understand more about our products.

Tube Fittings Safe Installation Course

This challenging course will explore the many benefits of our tube fittings range and focuses on each aspect needed to achieve right-first-time installations.

Custom Services

Pressure Regulators, Self Acting Control Valves, Pressure Sensors & Switches, Safety Relief Valves, Gauges & Manometers

Flow Meters, Switches & Control Valves, Solenoid Valves, UHP & Cryogenic Valves, Excess Flow Valves, Filters, Strainers, Pumps & Mixers

Level Sensors, Indicators & Switches, Submersible Transducers, Float Valves, Bleeding & Venting Valves, Steam & Condensate Traps, Thermocouples

Tube, Pipe, Weld and UHP Fittings, Quick Connects, Instrumentation Valves, Bottle Connectors, Tubing, Piping & Flexible Hoses

Differential Pressure Sensors, Room Condition Monitors, Power Meters, Particle Counters, Humidity Sensors & Calibrators

Installation Training, Subassemblies, Valve Sizing, Servicing & Repairs, Site Surveys
